

# DHPPG Series

## Filter Bags

DHPPG Series Filter bags made of high-quality needle felt filter cloth with special structure. It has the characteristics of high strength, large dirt holding capacity, excellent filtration efficiency and long service life. It is widely used in chemical, food and beverage, pharmaceutical and other fields.

### Product Characteristics

Material	PP
Micron	0.5-250µm
Models	#01,#02,#03,#04
Ring Type	Steel Ring / Plastic Ring
Technology	Hot Melt / Seam
Features	Large Pollutant-holding Capacity/ Long Life Service

### Performance

PH	1-13
Max Working Temperature	80°C
Max Pressure Difference	0.2MPa/25°C

### Product Specification

Size	Max Flow (m³/h)	Filter Area (m²/h)	Volume (L)	Diameter	Length
#01	20	0.25	8	7"(180mm)	17"(450mm)
#02	40	0.5	17	7"(180mm)	32"(810mm)
#03	6	0.09	13	4"(105mm)	9"(230mm)
#04	12	0.16	2.5	4"(105mm)	15"(380mm)

\* Flow rate can be influenced by pressure difference and other factors
