

DHOLG Series

Oil Absorption Filter Bag

Made of multi-micron special microfiber filter material, it has high capturing ability and dirt holding capacity for hydrocarbons. The oil absorbing material can absorb up to dozens of times its own weight of oil.

Product Characteristics

Material	Oil Absorbing Cotton
Specification	#01,#02,#03,#04
O-ring	Steel / PP Ring
Technology	Seam
Features	Large oil absorption

Performance

PH	1-13
Max Working Temperature	80°C
Max Pressure Difference	0.2MPa/25°C

Product Specification

Size	Max Flow (m ³ /h)	Filter Area (m ² /h)	Volume (L)	Diameter	Length
#01	20	0.25	8	7"(180mm)	17"(450mm)
#02	40	0.5	17	7"(180mm)	32"(810mm)
#03	6	0.09	13	4"(105mm)	9"(230mm)
#04	12	0.16	2.5	4"(105mm)	15"(380mm)

* Pressure differentials and other factors can affect the flow.
